Professional Summary

Full-Stack MERN Developer with hands-on experience building scalable web applications, secure authentication systems, and real-time IoT dashboards. Proficient in designing REST APIs, implementing JWT-based authentication, and integrating ML models into production systems. Strong problem-solving skills with 200+ DSA problems solved on LeetCode.

Education

Government Engineering College, Gandhinagar

Bachelor of Engineering — Electronics and Communication

2024 – 2027

CGPA: 8.56/10

Relevant Coursework: Data Structures, DBMS, OOP, Operating Systems, Web Development

Technical Skills

Languages: C++, JavaScript, SQL

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code, Vercel

Concepts: JWT Auth, OTP Verification, MVC Architecture, IoT Systems, API Security

Problem Solving: Solved 200+ DSA problems on LeetCode

Projects

AI-Powered IoT Monitoring & Fan Control Dashboard

React.js, Node.js, MongoDB, ESP32, Python ML, JWT, Tailwind, Twilio, Brevo SMTP

Live: aerothermal-fanfronted.vercel.app

GitHub: github.com/Manav378/Aerothermal_fan.git

- Developed real-time IoT system using ESP32 to monitor temperature and control fan speed with PWM.
- Built MERN dashboard to stream live sensor data (temperature, RPM) with user-level device access.
- Designed secure device onboarding system using unique passkeys and JWT authentication.
- Integrated OTP verification using Twilio SMS and Brevo SMTP email.
- Applied RandomForest model for temperature prediction and trend analysis.
- Implemented analytics pipeline for weekly performance monitoring.

Full-Stack MERN E-Commerce Platform

React.js, Node.js, Express.js, MongoDB, Stripe, JWT, Tailwind CSS

Live: trendcasa-fronted.vercel.app

GitHub: github.com/Manav378/e-commerce-clothing.git

- Built full-stack e-commerce platform supporting authentication, cart, and order workflows.
- Implemented authentication system (signup, login, password reset, OTP verification) using JWT.
- Integrated Stripe payment gateway for secure transactions.
- Developed admin dashboard for managing products, users, and orders.
- Optimized REST APIs and improved frontend performance using Tailwind CSS.
